Technical Information

GAMAWET - NW

GAMAWET NW is a non-ionic low foaming high performance scouring agent with inbuilt stabilizer for textile processing.

SPECIFICATIONS

- Biodegradable surfactants
- Thin to thick white paste
- Non ionic with pH 9
- Dispersible in water

ADVANTAGES

- Pronounced emulsifying and dispersing action.
- Shows stain removing properties at higher dosages.

FEATURES

- Good wetting action with excellent oil and stain removing properties.
- Stable in hard water, bleaching and caustic soda solutions.
- Low foaming for jets, soft flows and high speed winches.
- Completely biodegradable, eco-friendly, bio-safe and non toxic.

USAGE: 0.5 to 1%

GAMAWET NW is a all round low foaming detergent with stabilizing action finding use in textile processing like desizing, peroxide bleaching, hypochlorite bleaching, dye washing off and after soaping.
